

Hello,

There are a number of songs and programs on today's radio waves that I do not wish to listen to nor do I want my kids to listen ...RAP is a good example. KLOVE is a good alternative for those who do not wish to listen to today's trendy stations and KLOVE is one of the few stations with decent programming that the family can enjoy. A number of people I know will simply turn the radio off and some will unfortunately have little choice and have to choose a different station because KLOVE is no longer available.

Today mainstream music has sexual innuendos, foul language and it's all over today's airwaves... At least we had a choice in the type of music we wanted to listen to. Your new broadcast service will end that choice. When you make your decisions please remember to keep KLOVE available for us!
